### THE GONDOLA RIDE

The adventure begins with an eight minute journey to the summit of Sulphur Mountain in a modern, fully enclosed four passenger gondola cabin. The views become increasingly spectacular as you climb 698m (2,292 ft) to an elevation of 2,281m (7,486 ft) at the Summit Upper Terminal – the departure point for a mountaintop of activities.

### BANFF SKYWALK & NATIONAL HISTORIC SITE

The Banff Skywalk is an easy 1 km self-guided interpretive boardwalk along the summit ridge that leads to the Cosmic Ray Station National Historic Site of Canada, and the Sanson's Peak Meteorological Station. The notable stories of the area and early explorers are as impressive as the spectacular views!

More adventurous hikers will want to try the South East Ridge Trail – a favourite among locals.
